Rich, I agree sending the packages to EU at same time as Dawn is better. Obviously, up to now we were playing catch-up with the EU just by the nature of the fact they were created in the middle of the process.

Packages should go to WPD..... Vicky and I have not yet spoken but I did send her a note explaining what comments we could and couldn't deal with. I'm expecting less minutia this time.

Thanks all, den.

▼ Richard Fetzer---04/06/2012 03:27:55 PM---Thanks Kelley ... you too. Jerry/Den, just a heads up that we plan to send the data to HQ EU the

Thanks Kelley ... you too.

Jerry/Den, just a heads up that we plan to send the data to HQ EU the same time we send it to Dawn. Last time we gave Dawn some time to review first, but this will save us some time. OK? They will also get both the residential reports and the tox report (has more details). Also note Kelley's question about WMD.

Rich

Subject: Week #3 update

Just received last response from Cindy Caporale re: the week #3 data review. We should now be able to have SERAS enter any remaining final qualifiers into Scribe. I expect we will complete this on Monday and then prepare the tox reports for review by Dawn. As discussed - will also send the tox reports to HQs EU. I will confirm Monday whether we should also provide tox reports to WMD.

Have a good weekend!
